

Amaya Mali

Product Designer

512.695.6794 | amaya.mali3@gmail.com | www.linkedin.com/in/amayasm/ | www.amayamali.com

Skills

Technical Skills: Figma, Framer, Cursor, TypeScript, Adobe Illustrator, Sketch, Mural

Soft Skills: Product strategy, UX / UI design, design systems, prototyping, storytelling, usability testing, data visualization,

Strengths: First-principles problem solving, brand identity craft, systems thinking, collaborative execution

Experience

Experienced Product Designer

IBM | June 2020 - Present

- Designed across 4 different products and shipped features after the first 90 days on the products
- Led product design and research on IBM Automation B2B web applications, increasing **revenue on acquired products by 100 Mn.**
- Shipped designs for 4 B2B web application products end-to-end, impacting **102Mn in revenue by taking complex workflows and making them simple and intuitive.**
- Developed a deep understanding of design systems by becoming a top contributor to IBM Carbon Design System, applied to over **500 products, and presented to 80+ designers and developers the library and component.**
 - Directly impacted IBM design patterns on multiple software IBM products, desktop applications, and [published](#) with over 100 external requests.
- Partnered cross-functionally with PM & engineering to ship SaaS trials and close **\$200K in customer deals** through rapid prototyping and user feedback.
- **Designed and shipped a premium new feature that increased annual customer growth by 24%**
- **Filed 1 patent for AI model design**
- Led end-to-end design of a product feature to include **5 data visualizations** and integrated a new design system by **3-in-a-box with product management and engineering, incorporating customer feedback**, and communicating with stakeholders

IBM Patterns Internship | Jun 2020- Aug 2020

- **Redesigned IBM's seller training system for remote delivery**, expanding reach from 100 to 500 students annually.
- **Conducted 16 user interviews + usability tests**, identifying friction points that shaped optimization features.
- **Delivered 4 new platform features**, supporting IBM's **\$60B revenue goal** during global remote transition.

Product Design Intern

Responsible AI Institute | June 2019 - June 2020

- One of the first employees redesigned and managed the complete website, from analyzing to building the site
- Analyzed the language and layout choices of competitor websites through design audits.
- Undertook an ethical AI assessment and created a high-fidelity UI
- Constructed wireframes to ensure effective interaction design, **resulting in a 5x increase in website engagement.**

Education

University of California - San Diego

Bachelor of Science: Cognitive Science, Design
